

READ N TRY Coloring Book

This free coloring book was inspired by chip carving – an ancient craft that combines geometric shapes into intricate patterns. Visit READ N TRY website to learn more about this book and the patterns online: <http://readNtry.com/blog/coloring-book/>

This coloring book is good for both kids and adults; the patterns are grouped by “Easy”, “Medium”, and “Hard” levels. The book contains 11 never-published-before patterns and I hope to add more patterns over time. The updated book will be published on the website.

About the Author

My name is Roman. I am a software engineer with a passion about enterprise software development. I enjoy woodcarving as a hobby. I used my software engineering skills to design patterns with a high degree of precision. I am very glad to share my patterns with artists and craftsmen online on my website READ N TRY. Please get in touch if you like it.

Instruction

Print the patterns on your favorite paper and enjoy your coloring time. You may also print the patterns on vinyl and make colorful stickers, coasters, gift cards and picture frames. Share your completed pages and projects by sending pictures to color@readNtry.com.

Table of Contents

- Scenes
- Mandalas
- Frames

Please consider donating to READ N TRY (PayPal to color@readntry.com) so I could design/share more patterns in the future. Thank you for your support!
